

Pure rail leaders, we are architects integrating every dimension of rail. From high-speed, intercity and regional trains to metros, monorails, trams, turnkey systems, signaling, infrastructure, end-to-end services and digital rail solutions, Alstom offers the industry's broadest and most integrated portfolio. Present in 63 countries with more than 86,000 employees from 184 nationalities, Alstom combines global expertise with local impact.
