

Since 2010, SONDA, a leading company in digital transformation, distributes and supports Autodesk in Latin and Central America as a VAD (Value Added Distributor), except in Mexico, Colombia and Ecuador. Its distributor network includes subsidiaries in Chile, Argentina, Costa Rica, Peru and Uruguay, as well as Pars in Brazil and Down To Earth (DTE) in Central America, the Caribbean and Venezuela.

The strategic collaboration with Autodesk has been going on for more than 20 years, consolidating SONDA as the main Autodesk VAD in the region, with functions in commercial, engineering, license compliance and marketing areas, among others.
