

## SENER Group: Engineering and innovation with an independent identity

Founded in 1956 as Spain's first private engineering firm, we are an independent, multidisciplinary technology group guided by excellence, commitment, and passion. With innovation at our core, we operate through our Aerospace & Defense, Energy, Advanced Facilities, and Mobility divisions.

In the Mobility sector, we lead the transformation of transportation through differentiating technological solutions and an unrivaled track record:

- Rail: +15,000 km designed.
- Urban Transport: +1,700 km and over 110 systems.
- Roads: +20,000 km of infrastructure.
- Marine & Ports: Presence in over 140 ports.
- Architecture, Water & Airports: More than 1,000 comprehensive projects transforming the environment.
- Consultancy & New Technologies: +300 projects.
